

Senior Geophysicist

Presentation

ERM.S group is specialized in advanced geostatistics for Earth Resource Management and operates within the Oil&Gas market under its SeisQuaRe registered trademark.

Context

SeisQuaRe solutions provide geophysicists with innovative, beneficial services ensuring suitability of seismic data for reservoir purposes. SeisQuaRe offers a wide range of applications from supervision of geophysical processing to time depth conversion, reservoir characterization and monitoring using seismic attributes. High among SeisQuaRe solutions assets, is the computation of the SQI (Spatial Quality Index), patented by ERM.S Group and implemented in V_SQuaRe, software dedicated to seismic velocity visualization, QC and management.

Key Responsibilities:

SeisQuaRe is seeking to hire suitably qualified and experienced engineers to reinforce its Geosciences team based in France.

As Senior Geophysicist, you will have the following responsibilities:

- Contribute to the development of geological models within the framework of integrated projects ;
- Manage Multi-disciplinary projects ;
- Represent company Geophysical disciplines with our client ;
- Contribute to the business development of our products ;
- Identify new and exciting business opportunities and write proposals ;
- Participate in company R&D projects ;
- Ensure and facilitate the spread and development of geophysical techniques within the company, in particular by providing hand-on training to new starter.

Requirements:

- Professional Degree or Master's Degree in either Geophysics, Physics or Mathematics ;
- At least 10 to 20 years working experience preferably as a seismic operations geophysicist (seismic processing and interpretation) ;
- Excellent Knowledge of Geostatistics and Oil&Gas market
- Strong project management skills and ability to manage multiple projects concurrently;
- Proficiency in basic computer use ;
- Supervise juniors for work on domain ;
- Fluent in English.

Additional Information

Location : France (Paris – Pau)

Status : Full Time

Salary : To be defined
